

'99' Club

In September 2015, we introduced a really exciting new initiative called '99 club'. '99 Club' is designed to improve the children's speed, motivation and confidence when learning their times tables and developing their quick mental recall. The club will involve all children from Y2 to Y6 and has proved very successful in other Schools across Gloucestershire.

Children complete a special 4 minute test every fortnight and progress from 11 club to 22, 33 and 44 clubs etc. Children eventually end up at 99 club, which means that they must complete 99 questions in just 4 minutes!

Each time children progress to a new club they receive a special club badge to wear on their School jumper and a mention in assembly!
